CGPA :- 9.0

📁 PROJECTS

Realiable attendence monitoring System
- Developed a reliable attendance monitoring system using RFID sensors and GSM modems.
- Automated the process of tracking student attendance and improved accuracy compared to manual systems.
- Integrated real-time notifications via GSM technology for streamlined attendance reporting.

Coffee Shop Website 🔗
- Integrated online ordering and reservation systems to enhance customer convenience. Regularly updated website content to reflect current promotions, menu items, and events.
